EXPERIENCES

Product Designer Articulate AI – EduBot , New York, NY	08/2022 - Present
• Collaborate with Columbia University professors and students to build a Chatbot with Conversational AI from 0-1, in a Natural Language Processing Lab, which is organized as a startup environment that makes use of Agile project management methodology	
• Effectively designed and implemented an array of functionality of an English learning website named - Edubot; which is aimed to guide language learners to practice Standardized English Tests by chatting with the bot in both written and spoken forms	
• Gathered a wealth of information that proved very useful in steering the project in the right directions	
• Conduct and lead various User experience design processes for an educational chatbot web Application (soft launch); from user research to the design of features, visual and branding, and the testing of developed products	
• Facilitate the product vision by sketching, wireframing, experiences for product, participating in user observations to understand user testing methods, and delivering outstanding documentation, user assistance, and product copy	
• Gather useful teamwork experience, balancing taking direction with working independently, while communicating effectively	
ESL Teacher Community Language Program at Teachers College, Columbia University , New York, NY	02/2022 – 08/2022
• Conducted need analysis and designed course curriculum and language assessment, including syllabus, assignments, and unit tests	
• Designed lesson plans and taught 120 hours of classes in integrated English skills, including reading, listening, speaking, and writing both online and onsite to adult intermediate English learners	
ESL Teacher Community Impact at Columbia University , New York, NY	09/2021 – 12/2022
• Cotaught weekly classes in elementary level integrated English skills to adult Hispanic immigrants	
• Designed the course curriculum including syllabus, lesson plans and unit tests	
EFL Teacher Chengdu Aizhi Jacaranda Kindergarten , Chengdu, China	07/2020 – 01/2021
• Designed the course curriculum and taught weekly classes to kindergarten students	

ACADEMIC & RESEARCH PROJECTS

Our Story Individual project	05/2022 - 10/2022
• Conducted thorough user research on U.S. immigrants who are also English learners, to understand the viability of the project, the user pain points and the problem which the project has to solve, for it to be a success	
• Designed the functionality of an English learning Application that engaged first-generation immigrants (English Learners) and second-generation immigrants (Native English Speakers) to create bedtime stories through cooperating in information gap activities	
• Conducted and led various User experience design processes for an educational chatbot web Application	
• Directed, shot, and edited a propaganda film for the Application	
The Developmental Data of Special Education in U.S Research assistant, Bloomington, IN	05/2019 - 08/2019
• Researched early intervention for children with special needs based on the content of the 40th (2018) annual report of the IDEA of U.S. data and analyzed different categories and settling environments in the 2016 fiscal year and the decade 2007~2016	
• Provided suggestions for strengthening the professional support force of the special education resource center for regular education institutions and enriching the settling environments for inclusive education	
Chinese Christian Church of the C&M Alliance , Propaganda film director, Bloomington, IN	01/2019 -03/2019
• Directed, shot, and edited a 3-minute propaganda film including shootings of events and interviews of church priest and its members	
• Translated the church priest's interview from Chinese to English and used it as the background introductory voice for the film
